FAANG+ Fund Objective

The investment objective of the Sub-Fund is to generate capital growth mainly through exposure to the development, advancement and use of technology. The Sub-Fund will be invested predominantly in global technology equities some of which are familiarised by the acronym “FAANG” defining the most well-known technology equities, Apart from the FAANG equities, the Sub-Fund will also invest in other large technology stocks. However, the fund may invest up to 10% of the holdings into other technology related assets should the manager deem this feasible in order to achieve the investment objective of the fund. Up to 100% of the assets of the Sub-Fund may be invested in equities.

Why invest in FAANG+ UCITS

Growth Story

FAANG+ offers exposure to companies that dominate the technology sector and have a history of strong growth over the long-term.

Market Leaders in Different Sectors

UCITS diversified portfolio of the leading technology stocks in the S&P 500 Index and MSCI World Index. Exposure to some of the largest tech companies in the US, China, Taiwan, Korea & Europe.

Inflows from Passive Investors

The S&P 500 is a market capitalisation weighted Index. The market cap of the FAANG+ stocks and Microsoft represent approximately 25% of the S&P 500 Index. This means that for every \$100 invested into the S&P 500 Index, approximately \$25 is invested into FAANG stocks and Microsoft.

Broad Exposure to Global Technology Companies

FAANG+ holds names diversified across the Information Technology, Communication Services, Financial and Consumer Discretionary sectors, spread throughout four global geographic locations.

Eight Stocks Drive Over 50% of S&P 500 Gain in the First Three Quarters of 2024

As of the end of the Q3, these were the percentage points added to the S&P by its top performers versus the rest of the index

The S&P 500 is sitting at near-record highs, returning nearly 21% year-to-date as of September 30, 2024

Today, a limited number of stocks are powering the stock market's rally as investors pour money into companies that are advancing AI technologies

This graphic shows the top 10 S&P 500 stocks driving stock market returns in 2024, based on data from S&P, Nasdaq and Yahoo Finance

FAANG+ vs NASDAQ (2023)

The Castlestone FAANG+ UCITS Fund has performed well versus the major US Indices. Equities posted a strong performance in 2023 with the technology sector leading the advance. The announced partnership between Microsoft and Open AI helped focus investors' attention on the potential power of Artificial Intelligence. We expect that theme to continue in 2024 as IT budgets for better than 66% of US companies are expected to grow in 2024. The FAANG+ fund's focus on the leading technology names helped it to a better than 40% rise year to date, outpacing the Nasdaq Composite.

Fund Overview

AQA UCITS Fund SICAV plc

is licensed in Malta by the Malta Financial Services Authority ("MFSA") as an undertaking for collective investment in transferable securities (UCITS) (the "Scheme"). FAANG+ UCITS Fund is a sub-fund within AQA UCITS Fund SICAV plc (the "Fund"). The Scheme and the Fund are managed by AQA Capital Ltd., a Maltese UCITS Management Company licensed by the MFSA (the "Manager"). Castlestone Management LLC provides advice in relation to the investments to be made by the Manager in respect of the Fund.

Investment Objective

The Fund will focus on US and global tech companies. The Fund will have no leverage and predominantly hold exchange traded equities diversified under 5/10/40 rules of UCITS. The fund will also have the ability to use an option strategy targeting premium income from selling covered call options against the underlying holdings.

What is FAANG ?

Facebook, Apple, Amazon, Netflix, Google. Each of the FAANG stocks is included in the S&P 500 Index. Since the S&P 500 is a broad representation of the market, the movement of the market mirrors the movement of the index. Together, the FAANGs make up approximately 19% of the S&P, which has a total of 500 of the largest companies trading on the NYSE and NASDAQ. Adding Microsoft to the FAANGs represents approximately 25% of the S&P 500 Index.

Holdings Concentration

We aim to maintain weightings for the top 5 holdings (FAANG) as close to 8% as possible. These 5 stocks cannot be over 40% of the portfolio. No other holding can be above 5% of the portfolio. This helps clients who become concerned on soaring selected firm valuations skewing the portfolio concentration.

Why Own FAANG+ Stocks ?

FAANG+ stocks are some of the most popular and attractive stocks to own and should be considered in a portfolio due to their high growth potential. Approximately 25% of all money going into tracker funds of the S&P 500 Index and ETFs related to them both are allocated to FAANG+ stocks.

What is "+" ?

The equivalent? major tech names in Emerging Markets that have the largest market capitalizations and so weightings in the index (MSCI Emerging Markets). We have also included the next major tech names in developed markets to give the portfolio diversification across more stocks.

Fund Information

Transparent : 100% transparency of the holdings of the Fund.

No leverage: The Fund does not employ leverage which can distort returns (positively or negatively)

Diversified portfolio: Holdings across global technology and communication sectors. Available in USD, EUR, GBP.

Daily liquidity: - The fund will invest predominantly into equities that are exchange listed and liquid. However, the fund may invest up to 10% of the holdings into other assets should the manager deem this feasible in order to achieve the investment objective of the fund.
